

Executive MTech in Electrical Vehicle Systems

Where Knowledge Meets Innovation - Empower Dreams, Engineer Success

Tech Leadership Redefined - IIT Bhilai's Executive MTech Journey

Indian Institute of Technology (IIT) Bhilai was established in the state of Chhattisgarh by the Ministry of Education in the year 2016.

IIT Bhilai is presently housed in its permanent campus at Kutelabhata, Bhilai, Chhattisgarh.

At IIT Bhilai, we understand the demands of the dynamic corporate landscape, and our Executive MTech programs are meticulously crafted to provide a seamless blend of academic excellence and real-world applicability. Whether you aspire to advance in your current role, switch career paths, or stay ahead of industry trends, our Executive MTech courses offer the strategic edge you need to thrive in a competitive landscape.

Program Overview

Executive MTech in Electrical Vehicle Systems is a specialized program designed for professionals in the electric vehicle (EV) industry. It covers a range of topics from basic electric and hybrid vehicle technologies to cutting-edge advancements in battery systems, propulsion methods, and sustainable energy. The curriculum ensures comprehensive knowledge of electric vehicle technology, including energy storage, powertrain engineering, and smart grid integration.

- 🥝 Min 2 years of Experience within preceding 5 Years
- O Should have B.Tech/ BE/ M.Tech/ MSc (In Relevant Field- 4 Semester Program) / MCA (4 Semester Program) / MS Degree (min. 4 Semester Program).
- In the qualifying degree at least 55 percent marks or equivalent 5.5 CGPA/CPI must be there. In case of the candidate belonging to SC, ST, or Persons with Disability (PwD) category, this is relaxed to 50% or equivalent 5.0 CGPA/CPI. For MCA/MSC passed graduates, the percentage score of MCA/MSC would be considered. For BE/BTech Engineering graduates without PG specialization, the percentage score of the undergraduate degree would be considered. For a post graduation in the Engineering field of study, PG score qualification can be considered.
- Selection process will be scheduled post counseling & application process, depending on the number of eligible applications as per seat availability for the program. This entire process will be online.

Who Is this Program For?

- Engineers and software developers seeking a profound understanding of advanced electric vehicle systems will discover this program to be invaluable for refining their expertise.
- O This program is also well-suited for entrepreneurs, innovators, and tech enthusiasts who are eager to master the intricacies of Advanced Electrical Vehicle Systems.
- O The Executive MTech in Electrical Vehicle Systems is designed to meet the needs of individuals who are enthusiastic about advancing their careers and making a significant impact in the digital age, particularly within the rapidly evolving landscape of electric mobility.

PROGRAM OBJECTIVES

4	To introduce the fundamental concepts and technologies behind electric vehicles (EVs).
4	To analyze the challenges and future trends in the EV industry.
4	To gain proficiency in the use of control techniques for electric drives.
4	To provide an in-depth understanding of various battery technologies, including their chemistry, design, and applications.
4	To develop skills in analyzing, designing, and managing battery systems for various applications, including electric vehicles and renewable energy storage.
4	To develop skills in designing and evaluating renewable energy solutions for EV charging and power management.
4	To explore the design, operation, and optimization of power converters and control strategies for EV applications.
4	To evaluate the emerging trends and future developments in EV charging technologies and infrastructure.

	PROGRAM HIGHLIGHTS
	An esteemed certification, campus immersion & alumni status from
	Learn through Virtual Instructor-Led Training (VILT)
	Explore top-notch learning with industry experts

PROGRAM STRUCTURE

Semester - I

Course Code	Course Name	L	т	Ρ	С	Category
EV01	Fundamentals of Electric Vehicles	3	0	0	3	Core Course
EVE06	Energy Storage and Conversion	3	0	0	3	Core Course
EV03	Electric Drives and Control	3	0	0	3	Core Course

Semester - I - Total Credits - 9

Semester - II

Course Code	Course Code Course Name				С	Category
	Battery Technology and					
EV04	Manufacturing	3	0	0	3	Core Course
	Power Systems &					
EVEXX	Electronics	3	0	0	3	Elective -1
Select any one o	f the three options					
EVEXX	Energy & Sustainability	3	1	0	4	Elective -2
OR						
	Power Systems &					
EVEXX	Electronics	2	0	0	2	Elective -2
EVEXX	Energy & Sustainability	2	0	0	2	Elective -3
OR						
EVEXX	Energy & Sustainability	2	0	0	2	Elective -2
						Campus
EVC01	Campus Immersion	0	0	4	2	Immersion

Semester - II - Total Credits - 10

Semester - III

Course Code	Course Name	L	т	Ρ	С	Category
EVEXX	Innovation, Business & Testing	3	0	0	3	Elective 3/4
EVEXX	Energy & Sustainability	3	0	0	3	Elective 4/5
EVP01	Minor Thesis	0	0	8	4	Minor Thesis

Semester - III - Total Credits - 10

Semester - IV

Course Code	Course Name	L	т	Ρ	С	Category
EVEXX	Elective - (Any Category)	2	1	0	3	Elective 3/4
EVP02	Major Thesis	0	0	16	8	Elective 4/5

Semester - IV - Total Credits - 11

Total Credits : Semester - I + Semester - II + Semester - III + Semester - IV Total Credits : 9 + 10 + 10 + 11 Total Credits: 40

Additional Notes:

Campus Immersion:

If opted, it will be conducted offline and may also contribute to lab credit requirements.

Program Equivalency:

The Executive MTech (Online) Program is not equivalent to the regular offline MTech program at IIT Bhilai.

Thesis Requirements:

To achieve equivalency with the regular offline MTech program, the candidate must complete an additional 14 thesis credits on campus.

BUCKET FOR ELECTIVES

Category	Sem	Course Code	Course Name	L	т	Ρ	С
Dowor	2	EVE01	EV Charging Technology and Infrastructure	3	0	0	3
Systems &	2	EVE02	Smart Grids and EV Integration	2	0	0	2

	4	EVE07	Environmental Impact of EVs	2	1	0	3

Category	Sem	Course Code	Course Name	L	т	Ρ	С
	3	EVE11	Project Management in EV Industry	3	0	0	3
Innovation,	3	EVE12	EV Business Models and Market Analysis	3	0	0	3
Testing	3	EVE13	Autonomous and Connected Vehicles	3	0	0	3
	4	EVE15	Testing and Certification of EV Batteries	2	1	0	3

CORE LEARNING OUTCOMES

- Students will gain a comprehensive understanding of the principles and components of electric vehicles.
- Ability to design and evaluate key components of electric vehicles, such as battery systems and electric motors.
- 🧿 Proficiency in analyzing the performance of various electric drive systems.
- 🤣 Capability to select appropriate drive systems for industrial applications.
- Capability to apply knowledge of battery systems in real-world scenarios, particularly in electric vehicles and renewable energy solutions.
- 60 Knowledge of the impact of renewable energy integration on EV performance and sustainability.
- Insight into emerging trends and technological advancements in renewable energy for electric vehicles.
- Gapability to utilize simulation tools for designing and testing power electronic systems in EV contexts.
- Understanding of the integration of EV charging infrastructure with renewable energy sources.
 - Skills to analyze and predict the impact of EV charging technology on the energy sector.

PROGRAM ADMISSION JOURNEY

STEP 1:

Fill up an online application form, upload the required documents and submit application

STEP 2: Make the application payment

STEP 3: Shortlisting based on work, and education profile

STEP 4: If shortlisted, you will receive an offer letter from IIT Bhilai

STEP 5:

Pay admission confirmation fee within 7 days of receiving the offer letter

Note: The application fee once paid is not refundable. IIT Bhilai reserves the right to conduct the admissions process. By submitting the application, the students agree that any decision regarding Admissions from IIT Bhilai will be final and binding.

Fee Structure

Executive MTech in Electrical Vehicle Systems										
Application Fee (Non-Refundable)	₹ 5,000/-									
Faas	Instalment 1 Instalment 2 Instalment 3			3 Insta	alment 4					
1663	₹ 91,250/-	₹ 91	,250/-	₹ 91,250/-	. ₹9	1,250/-				
Total Fees	₹ 3,70,000/-									
Optional Fees										
Head	S	Sem 1	Sem 2	Sem 3	Sem 4	Total				
Optional Campus Imme	rsion Fee	₹ 0/-	₹ 10,000/	/- ₹0/-	₹ 10,000/-	₹ 20,000/-				
Optional Institute Alum	ni Fee	₹ 0/-	₹ 0/-	₹ 0/-	₹ 6,000/-	₹ 6,000/-				
Cancellation & Fee Refund Policy:										
Application Fee: Non-refundable.										
Course Fee Refund:										
A refund of 90% Batch commer	A refund of 90% of the paid course fee will be issued if a request is raised before the Batch commencement date.									

No refund will be provided on or after the batch commencement date.

Proficiency Gained - Tools and Technologies

Simulation Software

EV Design and Simulation

Battery Management Systems

Practical experience in EV design, battery technology, and energy management

Cloud Computing Platforms

Data storage, high-performance computing, specialized software

Virtual Labs

►LabVIEW^{*}

Virtually Testing EV Systems and Conducting practical experiments virtually

Programming Environments

Learning programming for EV systems analysis and development
